INJECTION MOLDING. PRODUCTION SUPPORT THROUGH DELIVERY.

Pioneer Plastics is a family-owned business in Marinette, Wisconsin. Pete and Kristine Aretz bought the company in 2013 and run it with their three sons.

From your molded part to your shipment. We add insert molding, overmolding, pad and UV printing, assembly and fulfillment to your production program.

Need prototypes first? Prototype and short-run additive support through Variety Vault and its partner network.

ISO 9001:2015 certified since 2014. We run first-article inspection and PPAP in house.

Paddles · yellow, red and blue

Split rings · red, black and white

Tethered caps · orange

Seat shell · black, perforated

17 PRESSES

From 90 to 650 tons, two of them electric, equipped with pickers.

65% UTILIZATION

Room on the floor for your next program.

ISO 9001:2015

Certified since 2014. First-article inspection and PPAP in house.

WHY CUSTOMERS CHOOSE US.

MOLDING AND TOOLING

Injection, insert molding and overmolding, with tooling through a Wisconsin, domestic and global network.

ASSEMBLED, PACKED, SHIPPED

We assemble molded and purchased components, then pack, stock and ship direct or on demand.

FROM PRINT TO MOLD

Start with prototype and short-run additive parts through Variety Vault and its partner network, then move into production molding.

FINISHED, NOT JUST MOLDED

We pad and UV print in house, and add sonic and heat welding, labeling, drilling, tapping and machining.

FAMILY-OWNED BUSINESS

The owners run the floor with their three sons, in Marinette since 2013.

QUALITY YOU CAN DOCUMENT

ISO 9001:2015, in-house first-article inspection with a Micro-Vu vision system, and PPAP.
